# CAROLINA ARCHITECTURE

## *And Allied Arts*

A PICTORIAL REVIEW OF CAROLINA'S  
REPRESENTATIVE ARCHITECTURE

*Single Copy \$1.00*

### FOREWORD

Selecting the material for this issue of CAROLINA ARCHITECTURE presented a problem unusually difficult to solve. Not only was there a super-abundance of interesting material submitted, but it was of a wide variety and character, making it doubly hard to decide what to retain. Much creditable and artistic material was regretfully omitted for the sole reason that space was unavailable. An earnest and conscientious effort was put forth, however, to incorporate that copy generally representative of the progress in architecture throughout the territory and if a tendency toward a change and evolution in the prevalent styles is evident, it will, it is hoped, give you a graphic cross sectional view of the influences and results which obtain at the moment. It is felt that the Carolinas have a great deal to offer in the advancement of the science of architecture, both in tradition and in modern accomplishments. With this representative presentation before you, it is for you to judge in which direction the future trend will be.

# From TOP TO BOTTOM

## CAREY BUILT-UP ROOFS

Engineered to the individual requirements of each job bonded to give definite years of repair-free service.

## CAREY ASFALTSLATE SHINGLES

Made especially rugged to insure extra years of trouble-free service. A layer of colored mineral granules provides a beautiful and durable wearing surface. When laid full three-thickness, coverage assures maximum roof protection. Made in a large variety of colors.

## CAREYSTONE SHINGLES

ASBESTOS-CEMENT . . . Made of the imperishable materials, Asbestos Fibre and Portland Cement, Careystone Shingles actually increase in toughness upon exposure to the elements. They are fireproof, weather-proof and rot-proof—permanent as stone and, in appearance, give a faithful reproduction of wood grain.

## CAREY ROCK WOOL INSULATION

CAREY ROCKTEX is the modern Rock Wool Home Insulation. A 4-inch thick blanket of the Rocktex installed in the walls and ceiling is as efficient in stopping the flow of heat as a solid brick wall about five feet thick. Vermin and termite proof. Effects fuel savings that normally return its cost in a few years. Produced in Bat, Wool and Granulated form, to meet all installation conditions in old or new homes.

**CAROLINA INSULATING & DISTRIBUTING CO.**  
CHARLOTTE, N. C.

**Carey**  
PRODUCTS

**Minimize  
Upkeep Expense**

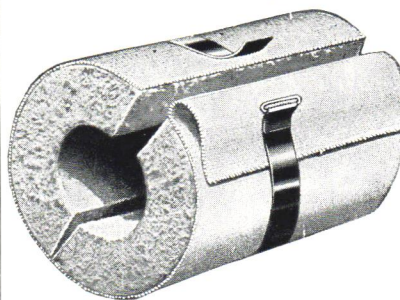

Carey Products offer new advantages that meet modern needs. Backed by 67 years of manufacturing experience. Recognized everywhere for their dependability. Buyers know that the use of Carey Products in a home means extra value, long life, modern comfort, low maintenance.

# Carey Magnesia-Asbestos HEAT INSULATIONS

**FOR DUCTS - PIPE - EQUIPMENT.  
ALL THAT IS BEST IN ENGINEERING,  
MATERIALS, SERVICE.**

**85% MAGNESIA**

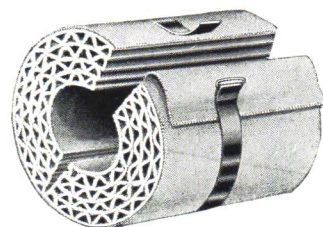

**AIR CELL**

For low pressure steam and hot water surfaces (100° F. to 300° F.) use Carey Air Cell Pipe Coverings and Blocks. Designed to insulate pipes, boilers, insulated metal boiler jackets, ovens and other apparatus. Made of four plies of corrugated asbestos paper per inch of thickness.

To insure highest efficiency, proved permanence, the correct insulation for every service condition, specify Carey Heat Insulations.

For high and medium pressure steam surfaces (200° F. to 600° F.) use Carey 85% Magnesia.

 Rose Hill Mausoleum, Chicago, Illinois.  
 St. Charles Borromeo Seminary, Overbrook, Pa.

A complete organization is maintained to co-operate with the Architect or Contractor. Preliminary estimates and samples promptly furnished without obligation. Experienced and practical granite men are available to give valuable advice and recommendations as to grade, style of finish, setting plans, details and other requirements.

The White Mount Airy Granite quarry has been operated since 1889 with shipments ranging up to as high as 3,000 carloads per year. The quarry and finishing plants are considered the largest and best equipped in the United States.

Specify and use White Mount Airy Granite with complete confidence. There is no better building material than granite — there is no better granite than White Mount Airy.

Many of the beautiful homes and buildings depicted and described in this volume are Carrier Air Conditioned for Summer and Winter. Some are only heated by the Carrier Oil Furnace.

All those having Carrier Equipment enjoy the benefits derived from Carrier's vast experience in over 99 countries, plus the experience of the Pioneer and World's Largest Organization devoted exclusively to the art of Air Conditioning.

You too may enjoy these benefits by calling us.

# FREE ENGINEERING SERVICE

## *For Architects, Contractors and Builders*

Bungalow or industrial plant — you want it modern. And making any building modern is making the most of gas and electric services.

Let us help you in using these services efficiently and economically. Our engineers have had wide experience in consulting with architects, contractors and builders. Their advice and assistance are yours for the asking, particularly on:

- ELECTRIC POWER INSTALLATIONS . .
- WIRING LAYOUTS . . . LIGHTING . .
- AIR-CONDITIONING . REFRIGERATION
- GAS & ELECTRIC KITCHEN PLANNING
- GAS WATER AND SPACE HEATING . .
